The early June poet met with a very cool reception this season.

Santos-Dumont does not belong to the 400; but he is a high-flyer, nevertheless.

Ladies of uncertain age who invariably call the men "those horrid things" take no interest in the June brides.

Anent the marriage of Governor Bailey to Mrs. Weed it may be truthfully said that she was a Weed's widow wearing a widow's weeds.

Who will donate ten acres of land to the city of Wilmington for a public park? It should, of course, be contiguous to the corporate limits.

Margaret McCloskey lived as a domestic with one New York family forty-five years. Forty-five minutes is about the average period of domesticity in Wilmington.

A mob of 5,000 is a big thing for little Delaware. But it isn't every day that the constituents of Addicks are afforded the pleasure of seeing a man burned at the stake.

The war news from Richmond reminds one who was there of the rock battles between the "Hill Cats" and the "Butcher Cats" fought fifty years ago. "Ambler's Hill" was the battle-ground, and there was a fight every afternoon, "Sunday's excepted."

JUNE BRIDEGROOM—"And now, darling, we are 'two souls with but a single thought, two hearts that beat as one'." JUNE BRIDE—"Very true, dearest; but, really, it is time for you to go to the kitchen and wash the dishes."

We observe that complaint is made of a scarcity of eggs. This may be accounted for in this State by the fact that large quantities of these ovals are now used in building the foundations for damage suits against railroads. And, like old wine, the more ancient the eggs the higher the price.

The Washington *Post* says: "Kentucky feudists have furnished another illustration of their magnificent nerve by banqueting one of their number in the shadow of the hangman's noose." Those pious people were simply mindful of the injunction: "Eat, drink and be merry, for for-morrow you die."

GRAND JURY REPORT.

Recommendation That the "Jim Crow" Law Be Enforced on the Suburban Line.

SOME OTHER SUGGESTIONS.

Separate Sleeping Apartments for White and Colored Prisoners at Castle Haynes—Jail Needs Whitewashing—Other Notes.

Having completed its duties for the term, the grand jury in the Superior Court yesterday came before Judge Peebles, made the usual report and was discharged with thanks. Copies of the report were ordered sent to the County Commissioners and spread upon the minutes. The report contains no features of special interest except a recommendation that the Jim Crow car law be put into effect on the suburban trolley line and the repetition of the suggestion that separate sleeping apartments be provided for white and colored prisoners at the Castle Hayne convict camp.

The jury was composed of Capt. George W. Huggins (foreman), Mr. W. P. Toon (clerk), and Messrs. I. H. Weil, Warren S. Johnson, J. A. Springer, A. F. Davis, Richard S. Murray, George F. Seitter, H. F. Otten, W. F. LeGwin, Montie Hewlett, Thomas B. Oldham, M. H. Kelly, Mark A. Jones, R. H. Bowden, J. L. Schutte, Charles Craig and E. F. Johnson. The full text of their report is as follows:

To the Hon. R. B. Peebles, Judge presiding, June Term Superior Court, 1903, New Hanover County:

We the grand jury appointed at above term of Superior Court of New Hanover county beg to make the following report: We have examined and returned 23 true bills, and in accordance with your charge we have visited the county jail, finding it in fair condition. We recommend that the male quarters be whitewashed and thoroughly fumigated. We found that one or more of the white prisoners had made an attempt to escape, and recommend that the damage done by them be promptly repaired. We also visited the convict camp at Castle Hayne and the County Home, finding these two places in splendid condition; no complaint to be made in regard to the condition of either place, but we recommend that a partition be built separating the white sleeping quarters from that of the colored prisoners at the convict camp.

We have also visited the camp on the shell road and found the same satisfactorily kept. In regard to the "White Elephant" that the county has on its hands—we mean the road engine—as usual is broken down and this time very badly. But Mr. Watson, the superintendent, says they have an expert here from the factory and he thinks after the repairs have been made it will be in good working condition. We recommend that the underbrush on each side of the shell road at Downny branch be thoroughly cleared away for the protection of the travelling public. We suggest that the superintendent of the camp be instructed to keep the curtain around the cage raised during the day when the weather will permit, as to effect ventilation, and that the cage be raised and put on blocks, so as to protect the wheels from rust and decay.

We have also examined the Court House and find same in good condition, except the vault of the Register of Deeds, the floor of which we find filthy on account of lack of spittoons for the use of tobacco chewers who frequent the vault; and we recommend that the necessary spittoons be placed in said vault at once.

We also recommend that separate apartments be provided for colored passengers on the suburban car line in accordance with the laws of the State.

Respectfully submitted,
GEO. W. HUGGINS, Foreman.
W. P. TOON, Clerk.

Arrested on a Capias.

R. N. Turbeville, white, was arrested by Deputy Sheriff W. H. Cox yesterday on a capias from the Superior Court, where he is wanted to answer the charge of having wantonly fired into a house in which a party of young boys, including the little son of Mr. Iredell Meares, were playing at the city rock quarry. Mr. Turbeville was watchman at the quarry and claims he shot into the house only to frighten the boys. He gave bond in the sum of $25 with Mr. H. A. Decover as surety and the case will likely be continued until next term. Turbeville is employed by the Fore & Foster Co.

Additional Pullman Services.

Commencing on the night of July 2nd, leaving Hamlet, and on the night of July 3rd, leaving Wilmington, trains No. 15 and No. 14, on the Seaboard Air Line, will carry sleeping cars, tri-weekly, between Wilmington and Hamlet. Train No. 15 leaves Wilmington at 9 P. M., and train 14 leaves Hamlet at 10:45 P. M. The sleeping car will be on trains leaving Wilmington Monday, Wednesday and Friday nights, and leaving Hamlet on Tuesday, Thursday and Saturday nights.

Both Blind and Demented.

Gus Carter, an unfortunate white man who lives on Castle, between Seventh and Eighth streets, and who is both blind and demented, was taken into custody by the police last night at the request of his family. Arrangements will be made to send him to one of the State institutions for treatment.

SHOT AT FLEEING NEGRO.

Belligerent North Carolina Excursionists Yesterday—Two Carried "Guns and Knucks"—One Overpowered.

The sight of a negro frightened within an inch of his life and fleeing as fast as his legs would carry him up Front street, while a rather picturesque individual stood near Front and Grace and attempted to accelerate the colored brother's flight by popping away at him from an ugly-looking revolver of the six-shooter variety, was sufficient yesterday evening about 6:30 o'clock to disturb the usual tranquility of the neighborhood in which the pistoricals were called into action. At the firing end was D. Norriz, of Mount Tabor, N. C., who arrived on the excursion from Conway, S. C., and the negro who stood not upon the order of his going was one of two drivers on a wagon of the Fore & Foster Co., which Norris attempted to stop by running ahead of the team and taking hold of the lines. The excursionist had been drinking and apparently had no reason for stopping the team. One of the negroes crawled off the wagon to liberate the animal so that the wagon could proceed and it was then that Norris opened fire upon him. The negro ran up the street, turned into Tucker's marble yard and jumped the back fence. Since then he has not been seen and the police are looking for him as a witness.

Norris was knocked down by Mr. C. H. Broward, a travelling man from Norfolk, and was disarmed by Mr. Broward, Alderman P. Q. Moore, Messrs. H. B. Bailey, E. V. Richards and others who happened to be in the vicinity. He fought like a madman and had to be tied and sent to the station in Mr. Robert Edens' wagon, which was passing. He will be tried in the Mayor's court to-day.

An hour later a cousin of the same man, J. A. Norris, and Josh McPherson, of Clarendon, both white, were disorderly at the A. C. L. station and the manager of the excursion refused to allow them to return. They were arrested by Gate Keeper E. Piner and were also locked up for a hearing to-day. J. A. Norris also had a pistol in his pocket, a pair of metal knucks and two flasks of liquor.

LOCAL DOTS.

— A building permit was granted yesterday to Franklin Pierce to erect a one-story frame house on Thirteenth and Princess streets.

— The Baltimore tug "Buccaneer," New York to Savannah, with dredge in tow, put in at Southport Thursday for water and supplies. She expected to proceed yesterday.

— The cases against J. F. DeBerry, white, which have been continued from time to time in Justice Fowler's court, were dismissed yesterday, all the witnesses having left the city.

— The tax listers of Cape Fear, Federal Point, Harnett and Masonboro townships will be at the Court House Monday, 29th inst., for the purpose of listing property in those respective sections.

— Justice Bornemann in another column announces the hours at which he may be found at the office of the late Capt. J. M. McGowan for the administration of magisterial affairs. He will continue his office in Fifth ward, being at each at stated hours.

— Two excursions reached the city yesterday—one of five cars from Rowland, N. C., run by A. B. Brick, and bringing about 200 people and another managed by T. J. Huffman, of Chadbourn, and bringing about 300 people. Both were over the A. C. L.

— Friends of Mr. J. H. McDougall, who was injured in the explosion at the Wilmington Iron Works last week, will be glad to know that he is now out of danger. On account of the broken limb, however, it will be several weeks before he can leave the hospital.

— A telegram from Coney Island, N. Y., yesterday afternoon to John A. Sheridan, colored, told of the death of his daughter, Emma, from a severe case of pneumonia. The remains are expected to arrive this evening. The funeral arrangements will be made later

— As a compromise of a legal affair, Willie Williams and Annie Bennett, colored, were married by Justice Fowler yesterday. There were no "shower bouquets," "diamond brooches, the gift of the groom," etc., but a simple, every-day affair that resulted in keeping Williams out of jail and contenting the bride.

— By deed filed for record yesterday C. F. W. Rehder transferred to E. Rehder, for $800, one-half undivided interest in property bounded on the north by Hall street; south by Moore street; east by Thirteenth street, and west by Wood's street, same being block No. 301, according to the official plan of the city; also, another tract near Anderson and Rankin streets.

At the Casino.

The present bill by the Rumley Sisters' Comedy Co. at the Casino will be seen at two more performances—to-day matinee at 4 P. M. and to-night. The comedy is conceded the best yet presented. For next week (4th of July) a great bill has been secured, the personnel of which will be announced to-morrow.

CONDUCTOR GETS $300

Cases Against S. F. Harmon Satisfactorily Adjusted in the Superior Court.

BOY SENTENCED TO 2 YEARS.

Disgraceful Conduct at Delgado Some Time Ago Investigated—Term Will Adjourn To-day—No Civil Suits Reached—Other Notes.

In the Superior Court yesterday the case against S. F. Harmon, charged with assaulting Conductor W. B. Jones, of the suburban car line, were settled in the manner foreshadowed in these columns the morning before, viz: the payment of $300 to Mr. Jones and the cost in both cases by Mr. Harmon, the who'e amounting to about $350 exclusive of counsel fees. Mr. Harmon appeared in court with his attorneys, Messrs. Waddell & Peschau and Herbert McClammy, Esq., the latter having been retained at the last moment. Messrs. Davis & Davis and Bellamy & Bellamy were present for the C. R., L. & P. Co., to assist Solicitor Duffy in the prosecution. An effort was made to get the amount paid to Conductor Jones reduced to $300, but Judge Peebles would not consent and in passing judgment said to the defendant:

"I am glad to hear that in consequence of a suggestion made by the court yesterday, you have paid to Mr. Jones, the man you assaulted, $300, which he says will satisfy him for the pain and suffering you have caused him. This is about the amount I intended to fine you in addition to the costs in both cases. Three hundred dollars, all costs in two cases and two suspended judgments hanging over you for all time to come as a guarantee for your good behavior, would seem at first sight, to be harsh punishment for a simple assault and battery and a nuisance by using indecent language in public, but public conveyances by which people travel—such as railroad and street cars—should be so protected by the law that women and children can travel thereon alone without the fear of being insulted or annoyed by bad or drunken men. That the money you have to pay goes to the man injured rather than to the State accords with my idea of justice. You must remember that if you misbehave and violate the law again in the future, judgment can be passed in either or both cases just as though you had not paid the $300 to Mr. Jones. This should act as a powerful incentive to you never to get drunk again."

The amount of money for Conductor Jones was then paid over to counsel for the prosecution and later transmitted to the injured man. The court costs were paid over to the clerk.

Court met as usual at 9 A. M. and adjourned at 12:30 P. M. The sheriff returned the talesmen for the day except James A. Kerr, C. C. Harris, Jno. W. Haper, Jr., Sam'l. Bear, Jr., Phil. Pearsall and H. F. Canady who were not found. Jno. R. Williams and W. D. Hall were excused.

Robert Grissom, white, previously convicted of abandonment, was let off upon payment of cost amounting to $23 and an alimony of $5 per month.

Rosa Watson and Alice Watson, charged with keeping a bawdy house, were given a continuance, one of the defendants being sick.

Julius Taylor and Hector Mumford, the young negroes charged with an attempt at criminal assault upon some little white children at Delgado, were arraigned and a nol pros as to Hector Mumford was entered. A mistrial was taken in the case of Julius Taylor but he was found guilty of indecent exposure of person and was sentenced to the roads for two years. The boy is only eight years of age and was represented by Brooke G. Empie, Esq. Mumford was represented by Herbert McClammy, Esq. Taylor was also tried for an assault with a deadly weapon, but judgment was suspended upon conviction in the preceding case.

Plummer Johnson, colored, previously convicted of the larceny of $10 from Herman Shievisl, was let off upon payment of costs. John McKoy, colored, charged with selling unwholesome meat, was allowed to continue his bond until next term. The case of Chas. Radcliffe, colored, charged with a. d. w., was continued and bond was fixed at $100. The sci fa ordered in the case of Arthur Beatty, colored, charged with a. d. w., was stricken out and he was placed on trial. A verdict of guilty was returned and he was fined $20. J. R. Sanders, found not guilty Thursday of forcible trespass upon the premises of S. E. Turner, Front and Surry streets, was tried upon a charge of assault with deadly weapon and was again not guilty.

An alias summons was ordered and order of publication was made in the divorce case of Oscar Edwards vs. Lula Edwards.

Court will adjourn for the term to-day. There are now only a few odds and ends to get off the docket. No civil cases of importance could be reached during the term.

Change of Date.

On account of the semi-centennial celebration of the Carolina Yacht Club at Wrightsville on the night of Tuesday, June 30th, the date for the graduating exercises of the Training School for Nurses at the James Walker Memorial Hospital has been changed to next Monday night, 29th inst. The exercises promise to be most interesting, including the presentation of diplomas by Dr. Akerman and an address by Dr. W. J. H. Bellamy.

THE PAPER MILL INDUSTRY.

New York and Philadelphia Capitalists to Locate at Washington, N. C.—Some Texas Experiments.

Apropos to the discussion here in regard to the establishment of a paper mill, it will be interesting to know that Philadelphia and New York capitalists who are interested in newspaper properties in those cities have made overtures to parties residing in Washington, N. C., and Grimesland for the purchase of a large area of property. It is learned that it is the intention of the Northerners to erect a large paper mill to manufacture the newspaper fibre paper. It is further stated that $300,000 will be invested in the proposed plant. The Jacksonville *Times-Union*, discussing another phase of the paper manufacturing industry, says editorially:

"The plant recently established at Orange, Texas, for the production of paper from pine shavings and other sawmill waste is now in full operation, and samples of the product have already been sent out; and while the specimen submitted for inspection is of the "wrapping" grade, there is every reason to believe that this new process will be found equal to the production of all grades of paper, including those used in book work.

"The success of this Texas enterprise has already led certain Louisiana capitalists to undertake the establishment of a similar plant at Lake Charles in that State, which is to have a capacity of fifteen tons of paper a day; and it now seems tolerably certain that the entire pine belt of the South Atlantic States will in a a few years be studded with mills for the profitable utilization of this hitherto unregarded sawmill waste.

"It is interesting to note in this connection that the first mill ever established by Robert Thomas, the inventor of the process employed in this interesting industry, was in Pensacola several years ago; and though the enterprise was eventually discontinued, its failure was due to causes purely local and personal in their nature, and in no way such as to effect the practical value of the invention, which from present indications, bids fair to play an important part in the industrial development of the new South."

BASEBALL THIS AFTERNOON.

Crack Game of the Season is Promised at Hilton Park To-day—The Players.

Doubtless the game of ball to be played at Hilton Park this afternoon between the College Boys and the Town Boys will be the most closely contested one of the season. The Town Boys, anxious to win this game, as the College Boys have not been defeated as yet, have strengthened themselves very materially by the addition of six of the A. C. L. and O. A. N. players. Dupree, formerly a star pitcher on the Wofford College team, will pitch for the Collegians. The admission will be fifteen cents for gentlemen; ladies free. Wagonettes will transfer patrons of the game from the street car terminal to the ball park without extra charge. These teams, especially the College Boys, are putting up a fast article of baseball and the game should be well patronized by the half holiday takers. The teams will line up as follows:

ANTI-SALOON FORCES.

Local Questions Were Discussed at a Called Meeting of the League Last Night.

A TEMPERANCE NEWSPAPER.

Organization of a Stock Company Discussed—Delegates Appointed to the State Convention in Raleigh. Ministers Urged to Attend.

An enthusiastic meeting of the Wilmington Anti-Saloon League was held last night in the Y. M. C. A. Mr. B. F. Hall was called to the chair in the absence of President P. Pearsall, and Secretary W. B. Cooper was present in his official capacity.

Mr. Cooper in stating the object of the meeting said that he had a letter from Mr. J. W. Bailey, president of the State League, requesting a large attendance from Wilmington at the temperance convention in Raleigh July 7th. Before taking up that subject, however, local affairs were discussed. Mr. Cooper said he had a conference with Mayor Springer in the interest of the Anti-Saloon movement and was received very courteously by that official. He said, however, he was sorry that the Board of Aldermen did not appear more in sympathy with the temperance cause.

Mr. J. B. Farrar said he thought from best indications, the mayor and four of the ten aldermen were friendly to anti-saloon interests. He had occasion to test the sentiment of the Board while in attendance upon its meeting for the purpose of granting liquor licenses Monday night. Mr. T. W. Wood spoke along the same lines.

Mr. H. L. Deans said he noticed a good many names of church members as endorsees upon the applicants for license, and he thought their action in signing such papers was due to thoughtlessness, or, perhaps, they believed the applicants would get license any way. Mr. R. E. Blake said he was present at Monday night's meeting of the aldermen and had taken the names of church members who endorsed applications. He thought citizens generally should attend the meetings of the Board and applaud any action of the body looking towards temperance, and to keep themselves generally informed as to municipal affairs.

Mr. Geo. E. Leftwich deplored the fact that so few ministers of the city were members of the League. Mr. W. H. Sprunt thought all ministers were with them in spirit, although they didn't attend the meetings. Mr. John Gano Marshall moved that the chairman appoint a committee to enlist the active support and co-operation of the pastors of the city and the motion was adopted.

Upon motion of Rev. J. R. Marshall the League went into the election of delegates to the Raleigh convention, which resulted in choice of the following: B. F. Hall, W. H. Sprunt, W. M. Cumming, Rev. Jno. R. Marshall, Rev. J. A. Smith, S. F. Thompson, R. E. Blake, Z. E. Murrell, Rev. Geo. B. Webster, Geo. H. James and Jno. Gano Marshall. Pastors of all churches in sympathy with the movement were also appointed delegates and their respective congregations urged to defray their expenses.

Upon motion of R. B. Moore it was decided to organize branch leagues in the several wards of the city to hold weekly meetings. Mr. A. P. Merritt in seconding the motion spoke in regard to the organization of W. C. T. U's. in each ward to aid the movement. The motion of Mr. Moore and suggestion of Mr. Merritt were adopted.

S. F. Thompson, formerly of Chadbourn, spoke at some length in regard to the cost and advisability of organizing a stock company for the publication of an Anti-Saloon League State temperance organ at Wilmington, provided the State League would adopt same. Rev. J. A. Smith and Rev. J. R. Marshall spoke in regard to cost of same. Upon motion of R. B. Moore the matter was deferred until next Friday night at 8 o'clock.

THE STRAWBERRY SEASON.

Carolina Fruit and Truck Growers' Journal Gives Interesting Figures as to Big Shipments This Season.

In its issue of to-day, reviewing the proceedings of the annual meeting of the Association here last week, the *Carolina Fruit and Trucker's Journal* will have the following by way of a comparison of the shipments last year with 1903:

"Shipping Master Bauman shows in his report that 1,979 refrigerator cars moved this season from all points in the territory with approximately 432,275 crates, as against 1,173 refrigerator cars, or 268,731 crates last year. The increase in the number of cars this year over last was, therefore, 806, and in number of crates 143,534.

"The Southern Express Company handled this season 82,651 crates from the W. & W., W., C. & A., N. E., A. & Y. railroads, Latta branch, and W. & N. R. R., against 43,690 crates last year, an increase this season of 38,961 crates. Shipped by open freight this season, 700 crates; last season, 1,097 crates; a decrease this year of 397 crates. The total number of crates by refrigerator, express and open freight this season was 808,626, against 315,005 crates last year, an increase this year over last of 190,621 crates.

"The number of refrigerator cars shipped from the W. & W. R. this season was 1,016, with 228,700 crates. Number of crates by express, 55,998; by open freight, 700 crates. Total, 288,298 crates, against 811 cars, with 193,269 crates last season. Number of crates by express, 27,790; by open freight, 961 crates. Total, 222,020 crates. Increase this season over last 66,278 crates and 205 cars.

"Along the Chadbourn division of A. C. L., the greatest per cent. of gain was reported. The total number of refrigerator cars shipped from the Chadbourn section this season was 911, with 182,300 crates. Number of crates by express, 1,688. Total, 183,988 crates, against 331 cars, and 69,956 crates last season, representing an increase this season over last of 580 cars and 113,932 crates.

The number of refrigerator cars shipped from the A. & Y. R. R. this season was 9, with 1,800 crates. Number of crates by express, 16,048. Total, 17,848 crates. Last season, 31 cars, with 7,341 crates. Number of crates by express, 7,970. Total, 15,917 crates, a decrease in cars of 22, increase in crates of 2,637. The number of refrigerator cars shipped from Florence, Lake City and Latta, S. C., this season were 43, with 9,675 crates. Number of crates by express, 5,917. Total, 15,502 crates. In the same connection, Mr. Bauman reports, the average number of crates to the acre this year to have been 78, as against 62 last year.

The idea of a special agent (Mr. J. O. Bowden) at Pier 29, New York, was a happy thought, and proved a ten-stroke for the growers as well as the receivers. So profitable, indeed, has been the experiment that other large markets like Pittsburg, Philadelphia and Boston have given notice already that they desire the Association to establish a special agent in those cities to conserve the same ends as did the Association's New York representative.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 27.

A COAST PATROL SYSTEM.

N. O. Picayune: According to advices from Washington, the Navy Department, acting on the recommendation of the General Board, of which Admiral Dewey is president, has created a coast patrol system for the purpose of guarding the coast line, keeping in touch with the cruising vessels of the Navy, and promptly reporting the approach of any hostile force or ship.

According to an order issued by the Acting Secretary of the Navy, the coast is divided into thirteen districts, each district having a headquarters under a commandant, and a torpedo boat base, where a suitable flotilla of torpedo boats can be assembled. In each district a system of co-operation is to be arranged between the Navy forces proper, the revenue cutter service, the Naval militia, the life-saving service, the lighthouse service and such army signal stations or coast batteries as can be communicated with from the sea.

There seems to be no special reason why this system of coast patrol should not be established at the present time except under the general admonition to prepare for war in time of peace. The system differs but little from that put in force at the beginning of the war with Spain, when the coast line was divided into coast defence districts and signal service districts. The system of co-operation between the Navy and the other branches of the Government service was decidedly weak at that time, owing to lack of adequate preparation beforehand. The experience during the Spanish war showed that the various outlying light stations were, as a rule, admirably located for observation points, and it is probable that in a future war most of these lighthouses will be utilized as signal stations. It would be necessary that these stations should be put in communication with the mainland by means of telephone cables, the installation of which would be costly, but as such telephone communication would be useful at all times, the expense should not be properly all charged to war requirements.

The proposition to utilize the revenue cutter service as part of this coast patrol system is an admirable one, as the cutters are constantly patrolling the coast, and the officers of the service are better acquainted with the coast line than the officers of the Navy. For the same reason the co-operation of the Naval Militia will be invaluable because of the local knowledge of the waters and coast near their respective stations which the militia organizations possess.

While the coast patrol service is strictly a war measure, it is to be organized and exercised in time of peace so that the various elements to be associated in it in time of war may become accustomed to their duties. Any service to be effective in emergencies must be well prepared and drilled beforehand, otherwise it might be developed at a critical moment that the whole plan of action is fatally defective.

The long series of naval maneuvers prepared for the present Summer, as well as the constant drilling and target practice in which the fleet is engaged, indicates that the Navy is actively preparing to be ready for any emergency, and the organization of a coast patrol is a further indication of tireless activity.

THOSE GOOD OLD HYMNS.

Atlanta *Constitution*: Quite a flurry was created in a preacher's meeting in New York last week by a discussion of the relative religious merits of the old-fashioned hymns and the new ragtime music that is invading the choir lofts of many modern churches.

Naturally the older ministers, mostly bred in the rural regions, raised on Sunday victuals equally divided between the catechism and cold light-bread, and taught by their pious mothers to sing "Old Hundred," "Salem" and "How Firm a Foundation," were stoutly in favor of the old Watts, Wesley and Doddridge hymns. The younger ministers frankly avowed just as strong a liking for the music that has a twentieth century swing and "go" to it. They were especially strenuous for march-time, soldier-song and battle-hymn music.

Of course, the *Constitution*, famed among its contemporaries for its orthodoxy in the faith once delivered, holds with the elders. One has only to go into a large religious meeting, especially one composed of "men only," and hear them sing those old hymns that were the favorites of the fireside and the log church in the country to be convinced that in them are the chords that are master keys to religious emotion and the strong stimulants of faith and fortitude that make for that righteousness of which the world has so great a need!

CURRENT COMMENT.

—— And the metropolitan of the Greek Church in Belgrade, while regretting "the necessity" for the assassination of the Obrenovich royal family, thanks the army for its work in that undertaking. Thus is King Peter's blood stained throne blessed by holy church.—*Charleston Post, (Dem.)*

—— The Bristow report now before the country leaves nothing in doubt so far as concerns the ground covered by his survey. It is a refreshing contrast with Postmaster General Payne's astonishing suggestion that all these nauseous revelations are in essence so many indictments of our martyred President McKinley—a suggestion so groundless, so fantastic, so grotesque as to be unworthy of consideration."—*Washington Post (Ind.).*

—— It is not the peculations and miscellaneous crookedness in the Postoffice Department that are worrying the Republican politicians, for thieves, like the poor, we have always with us, and it is only necessary to punish the rascals in order to gain more by the administration of justice than is lost by the scandal. What is worrying them is the growing evidence that the department has been unscrupulously used as a political machine, and that the disclosure of this fact will create an adverse public sentiment. There are also grave apprehensions that persons of considerable prominence in the party will be so discredited that their exposure will have an effect on politics next year. *Philadelphia Record, (Dem.)*

——The fact begins to appear that Tillman is in a close place and has ceased his confident assertions of acquittal and abandoned his defiant attitude. The people of South Carolina, diverted from all political aspects of the case, are now calmly considering the act of the accused man as they would if he were an ordinary murderer, and the result, there now appears to be reason to to hope, will be that justice will be done and the laws of the State vindicated. It matters little what the decision of the court may be on the question of a change of venue, provided the case be not removed to a locality of the murderer's own selection. We believe the temper of the people of the State is now unqualifiedly for equal and exact justice even though the accused be a Tillman.—*Chattanooga Times.*

He says, put the peas in soak, say in the morning, for the hogs at night, or at 12 o'clock for their feed the next morning; but to cook them is better. Our friend says that he has never been troubled with cholera when feeding his hogs on peas in this manner.

— Louis Garland, of Mitchell county, was mortally wounded a few days ago on an excursion train which was run over the new road just completed from Spruce Pine to Johnson City. It seems that Garland, who was acting as special policeman for the occasion, undertook to suppress the disorder raised by some drunken men on the train, when he was attacked by three roughs from Yancey county, two of whom held him while the third one, a man by the name of Williams, shot Garland through the body. It is thought that he will die. All three of his assailants leaped from the train and made their escape.

Overtures have already been made to the Washington & Plymouth people, but the Norfolk & Southern are holding them in check. If this scheme is not carried through then the Suffolk & Carolina will build a competing line from Washington to Plymouth and use transfer barges from Plymouth to Edenton, where the Suffolk & Carolina now runs a narrow gauge.

THE HORSE COLLAR O. K.

Comfort For the Good Beast—Best Draft For the Load.

The thin shouldered horse needs a light collar and the thick one a heavy enough collar at the point where the hametug crosses to field the hametug away from the sides of the shoulder. Before the horse is harnessed for work with the new collar or changed collar of another horse the collar should be wrapped round and round its entire surface with several thicknesses of burlaps, old blanket material or any cloth thoroughly wet and set to one side for several hours or long enough to soften the leather so that it will readily give at any point. This covering material can be wet again and again if necessary to accomplish the object, as in the case of an old, very dry hard collar. When this is done and while the collar is still very damp, with a piece of smooth wood like a fork handle the face of the collar, new or old, should be beaten all along just that portion which will come in contact with the surface of the horse's shoulders to loosen up the filling material and make it pliant.

Hames Well Adjusted.

Now put the collar on the horse and adjust the hames so as to bring the hametug at the right point on the shoulder to utilize as much of the horse's shoulder for draft pressure as possible—not too high and especially not too low or the shoulders of the horse will not only become sore near their points, but the top of the neck as well—a large majority of our horses are working with the draft on the collar too low. The next very important and never to be neglected point is to see that the hames are made to conform to the shape of the horse's neck, so that the collar in buckling the hame straps can be made to fit the sides of the horse's neck snugly from top to bottom, not even admitting the fingers between the collar and the neck without pressing the flesh away. If the hames are not the right form, try to make them so with bits of wood, cloth, leather or other material tacked upon the edges of the hames at the right places to force the collar to the neck all around. When this is all done well, work the horse in this damp collar one day at moderate work and he will mold the collar to the inequalities of

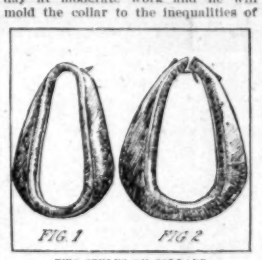

FIG. 1 FIG. 2

TWO STYLES OF COLLARS.

his shoulders far better than any collar maker could fit him by special measurement.

What Sweat Pads Do.

From our almost universal impractical method of attachment of the hametug to the hame we are forced to have the collar very much larger and fuller just where the tug crosses the collar than it should be to prevent the tug from rubbing or pressing the sides of the horse's shoulders as it extends backward, which practically makes a fulcrum of that portion of the collar over which the tug rotates, twists and grinds the collar over the shoulder, with a constant tendency to spread the collar or pull it away from the sides of the neck of the horse, which sooner or later calls for the use of sweat pads to fill up and prevent the horse crawling through his collar. Sweat pads to a horse's shoulders in hot weather are just about what rubber overshoes would be to our feet in summer time—make them tender, with a tendency to scald rather than toughen them.

Buckle the Hame Straps Tight.

Fig. 1 in the illustration shows the light collar (but same length) where the hames have been made to fit the collar to the neck and the hame straps always kept buckled tight, and Fig. 2 is the heavy, strong, unyielding collar where the hame straps have been more or less neglected and the other collar and hames never properly made to conform to the horse's neck.—J. C. Curryer in National Stockman.

Early Cauliflower.

Cauliflower plants grown under glass are set in the open ground just as soon as the soil conditions are favorable. The soil should be very rich, rather moist, but well drained and kept under thorough tillage. When plants begin to form heads, tie the outer leaves over the heart to shade it. Cauliflowers cannot stand our full summer heat and sunshine.

Onion Growing In Brief.

Sow onion seed thinly in drills twelve inches apart and thin to four inches in the drills; if cared for, nice sized bulbs will be the result. Sow thickly for sets. They don't need thinning. Plant out sets if not already done.

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, June 26.—The cotton market opened steady, three points lower to an advance of nine points, and at first reflected the uncertainty of the trade over the attitude of the bull clique in connection with July notices which were issued to the extent of about 90,000 bales, or greatly in excess of the previous day estimates. Cables also were rather disappointing at the time of the local opening and for a time prices showed a downward tendency. Almost immediately, however, it was learned that the bulls through five or six local houses had provided for every bale tendered which was believed to include practically all of the New York stock at present available for delivery on contract. The result was another scramble for cover, which sent prices wildly upward, July selling at 13.00 and 13.09, with the late months showing almost equal nervousness and excitement. The movement for the week was light, falling behind last year's by some 23,000 bales and the weather was again unfavorable with showers and low temperatures in many important sections. After the first advance the market ruled generally firm with very little cotton offering except in the more remote positions. There were indeed occasional reactions as a result of profit-taking, but generally speaking the course of values was upward until July and August had reached new high records for the season, the former month selling at 13.20 and the latter at 13.00. Just before the close there was enough realizing to ease the prices from the best, but the market was finally steady net six to seventeen points higher. Total sales estimated at 300,000 bales.

NEW YORK, June 26.—Cotton quiet at 13.35; net receipts — bales; gross receipts 84 bales; stock 163,925 bales.

Rev. J. W. Berry (of Arkansas Methodist Conference, writes:) "Enclosed find fifty cents for which please mail me two packages of "TEETHINA." We wonder how we have raised children without it. The other day a lady in Missouri sent us a package and it came at a most opportune time; our babe was in a serious condition; his bowels had been in bad condition for days, and nothing that we gave did any good; the second dose of "TEETHINA" gave perfect relief and he has had no further trouble. FARM AND GARDEN

FINE CELERY.

Wrinkles In Seed Sowing and Plant Growing—The Pink Varieties.

In a report on celery from the American Gardening trial grounds Mr. E. S. Brown says: We exercise care in sowing celery seed and cover the ground with a very light quantity of salt or meadow hay, which seems to keep it moist and open. When we sow in the field, we copy from the experience of the market gardeners of our early life in and around Jersey City, who fasten a chain so as to drag behind the drill, doing away with the wheel, and thus,

MAJOR CLARKE'S PINK.

while it smooths and covers, it does not seem to harden the soil. We take pains to gradually harden our plants so that when ready to set out they will be able to stand the chill of the open air.

We generally sow our seed for late celery in the open ground in April or else in the sash, where we often find we can care for it more handily. We prefer to sow in drills some eight or nine inches apart, no deeper than just to hide or cover, and then gently press with a board. In fact, if the soil is well roughed up and then sowed and then firmed with a board and then covered with the salt hay we find it better. The seed is rather slow in germinating. As soon as plants are well defined in the row we begin to cultivate, and as soon as the plants are well leaved we shear the tops off and do this each time we transplant. But we believe in severe thinning out as soon as possible so as to secure room for each plant to develop before pricking out. When the proper time comes, which is late in June or early in July, for setting out for use, we will have good, stocky plants.

To our mind each year's test or trials proved very completely that the infusion of pink or red color does seem to impart an improvement in flavor, and the red varieties are simply beyond any in quality. Major Clarke's Pink is one of the handsomest celeries now grown. Its foliage is very dark, and it is a strong grower, having a habit that is really desirable of making a very solid and close, compact bunch or boty, has an exceedingly large heart, is very solid and of a flavor that is the par excellence of any celery we have ever grown. It does not grow coarse and tall, but has more of a stocky, spreading body, which seems to protect its wonderfully large developed heart.

WHITE PLUME.

When blanched properly and trimmed and washed and bunched, it is exceedingly attractive and handsome. It has a deep pinkish tint pervading its stalks, yet there is in the heart or closely attached center a solid body of a pinkish ivory color. It is a good late variety.

White Plume, we are informed, requires little earthing. To the eye it appears bleached, as it grows white, and seems to give the impression that it has been blanched, yet if properly grown and blanched with boards it is indeed a meritorious variety and certainly is very early and a good, strong grower.

He Saw the Joke.

Here is a true story of a curious personality well known to many professional men in London today: He is a Scot, whose business ability is above the average, but everything he does is done with the air of a man constantly wrestling with some problem of the soul. He rarely speaks unless spoken to. He never smiles, and his eyes have a fixed but intense expression. One day he was returning to London with several companions. The whole party were Scotch, but the companions were of genial type. One of them told a humorous tale, over which the rest laughed uproariously. Not so the human problem. He sat in a corner of the railway carriage glowering at his mirthful friends. Half an hour afterward, however, when all were standing at a street corner before separating he took one aside and said solemnly and slowly: "Ye would obsairve that I did na' laugh at yond' story. Well, I saw the joke. Ye might not think it, but I have a keen sense of humor."—London News.

An average of thirty inches of rainfall will usually provide sufficient moisture to insure good crops of grass and grain without irrigation. With only twenty inches crops may still be successfully raised if due care is given to conserving the moisture by proper cultivation. With only ten inches irrigation is indispensable.

Would not it be a good idea to take enough pride in the school grounds of your district to see that at least a dozen good shade trees are planted this spring? Get two or three of the neighbors to join you in this patriotic work. If you will take the common water elm and cut the tops back well, the trees will live and do well under schoolyard conditions.

The continual tramping of stock will kill trees of any sort, even the bur oak. Thus when you turn stock in your orchard or in your grove you are taking the surest and most effective method to kill your trees. This fact should be remembered by men who work hard to set out groves and orchards and then deliberately take this means of destroying them.

ANY WOMAN MAY BE CURED.

MRS. FRANCES KINGSLEY,

First Vice-President of the Historical Club, 544 Garfield Ave., Chicago, Ill., says

CHICAGO, ILL., 544 Garfield Avenue, October, 9, 1902.

After doctoring for eleven months and taking forty-three bottles of medicine and finding no relief for leucorrhœa resulting from irritation of a fallen womb I took Wine of Cardui and fourteen bottles cured me. This seems strange but it is the simple truth. Wine of Cardui helped me from the time I began taking it and having heard it praised so highly by friends who had tried it I felt satisfied that it would help me, and it did. It cured me. Took every bit of ache, pain and headache, cramps and dragging down sensations away till I felt young, strong and happy once more. It is a wonderful medicine and a true friend to women. When I look back on the months of torture I had it seems like a hideous nightmare. Wine of Cardui will cure any woman I believe. I have more faith in it than all other medicines combined.

Frances Kingsley

Who would go on suffering female troubles after reading the earnest statement of this prominent woman? Are you suffering from leucorrhœa? Have you the irritation of a fallen or misplaced uterus? Do you have periodical headaches? Do you have aches, pains or cramps in the abdomen? Have you "bearing down pains"? Do you feel as if you were never "young, strong and happy"?

How can you refuse relief when you know these troubles are torturing you, are growing worse day after day? If you go to a physician after a local examination, he will probably tell you an operation is necessary. Mrs. Kingsley took Wine of Cardui and she was cured without an operation. And this is what you may do. Shooting pains, irregularity, inflammation and bearing down pains make thousands of women miserable. Why drag through life never enjoying anything? Wine of Cardui has made over 1,500,000 weak and suffering women well and strong. We ask you to go to your druggist today and secure a $1.00 bottle of Wine of Cardui and begin to take it at once. Do that and the health Mrs. Kingsley writes about will soon be yours. If you think special directions are needed in your case, address, giving symptoms, Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

WINE of CARDUI

A MAN AGAINST A NATION.

The Most Curious European War That Ever Was Waged.

The most curious European war ever waged was that which in the sixteenth century, the period of the reformation and the renaissance, was carried on single handed for between five and six years between a bankrupt grocer of Berlin and the elector of Saxony, who was the most powerful German prince of the period. The grocer's name was Hans Kohlhase, and the immediate cause of the quarrel was the arresting of two of his horses in the elector's territory, he being a subject of the elector of Brandenburg. Failing to get redress, he adopted what was then a perfectly legal expedient and declared formal war on the realm of Saxony. The declaration was accepted in due form, and the war began.

The extraordinary part of the story is that the grocer kept the war up for nearly six years practically single handed and even went to the extremity of declaring war on his own sovereign in the meantime before he was caught. He burned farms and even villages, employed mercenaries after the fashion of the times and made himself the terror of the district. He was finally influenced to stop hostilities by Luther, and after he had taken the sacrament from his hands he was betrayed into a further act of hostility by treachery and, being captured, suffered death on the wheel after refusing an act of grace which granted him the painless and honorable death of the sword. The story is perhaps the strangest of all the romances of that romantic age.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, of Decatur, Ala. "For three years," she writes, "I endured insufferable pain from Indigestion, Stomach and Bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I am completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50 cents. It is guaranteed by R. R. BELLAMY, druggist.

Nasal CATARRH

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail.

A Plain Dry Goods Talk.

It is easy to understand why we can sell Dry Goods cheaper than most people. The reason why, is this, we have so many different departments and each department is a store within itself.

Our Dry Goods and Dress Goods Department is 25 feet wide and 125 feet long. Our Clothing, Shoe and Men's Hat Department is also on our first floor and is 25 by 125 feet in size.

Our Millinery and Ladies' ready-to-wear goods of every description. Laces, Embroideries, is on our second floor, 50 feet wide and 125 feet long.

Our wholesale stock, with Carpets, Mattings, Trunks and Valises, Glassware, Tinware and Crockery, including a big stock of Dry Goods, Shoes and Men's Hats is on our second floor — all connected by an electric elevator as well as by stairway. In carrying so many different lines of goods we have only one rent to pay.

The second reason is we buy our goods in large quantities in case lots and get them cheaper than retail merchants; and the third reason is we pay the cash for our goods and save the cash discounts and give that discount to our customers in the way of presents. The factories give us a discount on our bills for the money and we feel that you are entitled to a discount on your money.

We have received this week a nice line of Chairs and Oak Centre Tables and Crockery to give away as presents.

In our Dry Goods Department we have just received some beautiful Percales, 36 inches wide; 10c values we are selling them at 7c. We also have a nice line of remnants in Percale, 36 inches wide, we are selling at 6c per yard. A line of large cord Pique we are selling at 8 and 10c per yard—worth 15c yard. A beautiful line of white Mercerized goods in 5 to 15 yard pieces, cheap at 25c; our price is 15c yard. A splendid white Pique, perfect goods in short pieces, 20c values for 12½c.

In Calico and Gingham remnants we have them by the pound in 5 lb bundles, about 50 yards cloth for $1.00 a bundle. In pretty Summer goods we have some nice patterns really worth 8 and 10c a yard. We are running them at 5c per yard. One piece basket weave Madras, newest weave on the market worth 25c, our price is 20c per yard.

For our customers who want black Dress Goods we have just received 1734 yards black woollen goods 36, 38, 40 and 42 inches wide—goods that are worth 25 to 35c per yard; our price is 20c your choice.

Our Men's and Boys' Clothing in all styles of summer weight goods. Coats and Pants—odd Coats and odd Pants in alpaca, wool serges, wash coats and wash suits are in big demand, and we would be glad to have you look at our line. A full line of wash suits for boys from 50c a suit to $1.50. Also a big line of boy's suits, $1.50 to $3.50 a suit.

Our Millinery Department is on the second floor. We have by far the largest display in this line of any store in the State. We are receiving new hats almost every day, and we have just closed out a big line of Tuscan flats and shapes that we have been selling at $1.25 that we can sell this week at 75c each. In white Chip hats, the newest and latest shapes, we are running at 48c; these sold at 75c first of the season. $1.25 and $1.50 values in white and black Chippon hats this week at 98c each. Our Silk and Horse hair Braid hats, with tuck crowns, for $1.50 this week.

Ribbons are in great demand. On our ribbon counters we have anything you can call for—all colors, all widths and all prices. We undersell any competition in the market.

We handle a big line of Ready-to-wear Skirts, Underskirts and Overskirts.

Our Lace counters have been newly supplied in Val Torchon and Linens, Allovers and Appliques.

We feel sure we can save you money. Our stock never runs down. Come to see us, and bring your card, get it punched and get a present.

The Morning Star.

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 27.

THE STRIKE SITUATION IN CITY OF RICHMOND.

Cars Running Under Military Protection. Boy Shot by a Soldier—Car Fired Upon and One Man Wounded.

By Telegraph to the Morning Star

RICHMOND, VA., June 26.—Cars were run on most of the city lines to day and for a part of the day at least on the suburban line to Barton Heights, all under military protection. There has been no molestation of cars, and no disturbance of moment, so far as reported. Travel on the cars continues light, however, though it was perceptibly heavier to-day than yesterday. The cars are to run until 12 o'clock P. M., and the outlook is for a peaceful night, though it is realized that an outbreak of disorder may occur at any moment.

A Boy Shot.

Lester Wilcox, a sixteen-year old boy, was shot by a soldier, in Fulton, the lower end of the city, about 9 o'clock to-night, for crying "scab" at a car, and refusing to desist when ordered to do so. He is wounded in the hand and hip. The hand is badly mangled. The boy was brought up town on a street car, and taken to the city hospital.

Cars have been run regularly on all but one or two of the city lines during to-day and to-night and during part of the day on the suburban line to Barton Heights; all under military protection. Travel on the cars is still very light, though it was perceptibly heavier to-day than it was yesterday.

The business men are moving toward bringing about a settlement of the strike, if possible. Trade is suffering severely by reason of the disturbance.

All those who were wounded yesterday and the day before are doing well. One or two of them left the hospital to-day.

About 11 o'clock to night William Tucker, aged 23 years, a passenger on a Main street car, was shot at the corner of Main and Belvidere streets, which is on the border of the most fashionable residential quarter of the city. He was peppered in the arm and leg with small shot, but was not too badly hurt to walk to his home after receiving the wound. The person who did the shooting has not yet been discovered.

SITUATION IN SERVIA.

German Emperor Sends a Cordial Telegram to King Peter.

By Cable to the Morning Star.

BELGRADE, SERVIA, June 26.—The German Emperor has sent King Peter a telegram couched in cordial terms.

The Austrian minister to-day resumed official relations with the Servian government.

The king's reappointment of the ministry yesterday is regarded as equivalent to a notification that no punishment will be meted out to the assassins of King Alexander and Queen Draga.

Foreign Minister Kalievics has sent a circular to the Servian representatives abroad explaining that King Peter reappointed the cabinet because he considered that he could not do better than entrust the government to the men in whom Parliament had a few days ago expressed its full confidence. One of the first tasks of the ministry would be to order new elections and the king would then be able to select a second cabinet from the predominant political party.

COTTON IN PORTO RICO.

Area in Cultivation is Being Increased Weekly—Cotton Gins.

By Telegraph to the Morning Star.

SAN JUAN, P. R., June 26.—Five cotton gins have arrived here from the United States and will be immediately installed. They are the first gins to reach Porto Rico for forty years. The cotton plantations of the island now cover eleven thousand acres and the area is being increased weekly. San Juan has been chosen as the centre of this trade.

Willis Sweet, of Idaho, was sworn in to-day as attorney general of Porto Rico.

POSTOFFICE CASES BEFORE GRAND JURY

Additional Evidence Against A. W. Machen, Superintendent of Free Delivery Service.

DECISION AS TO MR. METCALF.

In the Money Order Contract Case—A Cabinet Meeting—Postmaster General Payne—The Nellis Seed Contract Suit—Frauds Alleged.

By Telegraph to the Morning Star

WASHINGTON, June 26.—The grand jury which has been considering the postoffice cases presented by the investigation officials, held a brief session to-day, examined several unimportant witnesses and adjourned until Monday. What is known as the Tyner case, involving the abstraction of papers by Mrs. Tyner from the safe of in the office of the assistant attorney general for the Postoffice Department, probably will be placed before the grand jury early next week. Although two indictments already have been returned against August W. Machen, the former general superintendent of the free delivery system, additional evidence is being put into shape for submission to the grand jury. The cases of alleged forgery which postoffice inspectors have been looking into in connection with other charges brought against Machen will not be pressed, as anticipated some time ago, the evidence not being conclusive and the alleged offence being barred by the statute of limitation.

Money Order Contract Case.

WASHINGTON, June 26.—Assistant Attorney General Robb, of the Postoffice Department, to-day submitted to First Assistant Postmaster General Wynne a decision in the money order contract case, which holds that the bid of Paul Herman, of New York, who submitted a bid $45,000 below that of the present contractors, meets the requirements of law, and that he is therefore entitled to receive the contract.

This is the case which led to the recent dismissal of Superintendent Metcalf, of the money order bureau, and the present decision has a considerable bearing on Mr. Metcalf's case, now pending before the President on appeal for reconsideration of the removal. Mr. Metcalf opposed acceptance of the Herman bid. Mr. Robb holds that the award of the contract to any other than the lowest bidder in this case would be in contravention of the interests of the government and sound public policy. He says that the lowest bidder has furnished satisfactory evidence of his financial responsibility and of his mechanical ability.

Cabinet Meeting.

WASHINGTON, June 26.—The last meeting of the cabinet before the President's departure from Washington to-morrow was held to-day. Postmaster General Payne was among the first to reach the cabinet room. Shortly after the members had assembled former Postmaster General Smith, who took breakfast with the President, was ushered into the cabinet room.

Upon leaving the White House Mr. Smith said that his statement in response to the references to himself in the Bristow report would be given to the public to-morrow morning.

Postmaster General Payne occupied considerable time at the cabinet meeting in discussing his future plans relative to the investigation.

In this connection it can be stated authoritatively that the reports that Postmaster General Payne contemplates retiring from the cabinet are untrue. He has plotted out his future work, in connection with the investigation of his department, and is anxious to finish it. The President, it is said, has given expression to his own feelings in the matter by saying that he would permit him to resign only in the event that it became a matter of life and death.

Seed Contract Fraud.

In the Nellis seed contract suit, before the Court of Claims, an affidavit by Charles Kingsley, of Falls Church, Va., has been made public, alleging that A. C. Nellis, of New York, who had the contract for furnishing seed ready for distribution, to the government, two years ago directed that no tools were to be kept and that the packages should be light weight.

Kingsley was foreman for Nellis and in his affidavit says that no record books were kept showing the amount of seeds received in bulk; that he had suggested the keeping of such books but that Nellis said he did not want them kept. Kingsley says that these books were kept under former seed distributions. He charges that a great portion of the seeds was put in light weight packages, that Nellis instructed him to notify the employes engaged in putting up this seed to let the weights run light, and that he knows that these instructions were followed. Kingsley also charges that Nellis told him that he did not know how many seeds he had sent out and that best seeds were put at the rate of eighty packages to the pound, though the contract called for sixty-four packages to the pound.

TREATIES WITH CUBA.

Final Signing at Havana Has Been Postponed Until Next Week.

By Cable to the Morning Star.

HAVANA, June 26.—The signing of the final treaties between Cuba and the United States has been postponed until next week, because of the delay arising from the questions raised at Washington.

Congress at present is accomplishing practically nothing, although much important legislation is pending, including the appropriations and the electrical, judicial and municipal laws. President Palma continues confident that the Senate will shortly ratify all the treaties.

It is said that Senor Zaldo, the minister of state and of justice, will resign on his return to the United States. The report is not officially confirmed, but it is known that Senor Zaldo strongly disapproved of the strike amnesty and did not share President Palma's desire for the earliest conclusion of the treaties with the United States.

SHOOTING AFFRAY.

One Man Dead and the Other Probably Fatally Wounded.

By Telegraph to the Morning Star.

FORSYTH, GA., June 26.—As a result of a shooting affray last night between Walter Childs and Zolly M. Maynard, two prominent citizens of this place, Childs died to-day and Maynard is perhaps fatally wounded. It is said that the cause for the altercation was a former dispute between the two men over a negro employe which had recently been intensified by Childs engaging some negroes who were employed by Maynard.

NO FURTHER OUTBREAK IN WILMINGTON, DEL.

Saloons and Other Public Places Closed. Other Police Precautions—No More Arrests Made Yesterday.

By Telegraph to the Morning Star.

WILMINGTON, DEL., June 26.—The danger of further lawlessness as the result of the lynching of George F. White for the murder of Helen Bishop and the arrest of a man on the charge of complicity in the lynching, has not yet passed. While there is no visible evidence that another outbreak will occur, there is a feeling of uneasiness among the police authorities which has caused them to take extreme measures of a precautionary character to nip in the bud any further attempts of the whites to wage war on the blacks or of the latter to retaliate. Late this afternoon every saloon keeper in the city was ordered to suspend until to-morrow. In addition to this all public places, such as billiard, pool and bowling alleys and the public library were requested to close up to night. This was generally done. In line with the police precautions Mayor Fisher to-night issued a statement requesting parents to keep their boys off the streets at night. The mayor attributes a good deal of lawlessness to the boys.

Though the streets of the central portion of the city late to-night were filled with pedestrians everything was quiet. The police are preventing the congregation of crowds by keeping every one moving. The closing of the saloons and other public places had a tendency to fill the streets and caused knots of men to gather on corners, but the police had no trouble in dispersing them.

The lawless element among the colored people is largely blamed for the disorder of the last two nights. It is claimed that in certain parts of the town they marched through the streets and roughly handled any white person that dared stand in their way. On the other hand the whites, and some of them of the better classes, are not held blameless. There have been instances during the last day or two where white men and boys were the aggressors.

There were no arrests made to-day in direct connection with the lynching and the police give no intimation that they contemplate making any such arrests. Prominent citizens have suggested to the police that further arrests for the burning of White would be inadvisable in view of the excitement and disorder caused by the arrest of Arthur Cornell, of Indiana, in connection with the lynching.

Cornell was released from custody after a lengthy hearing before Magistrate George F. Hollis, for want of evidence. Warden A. S. Messerve, of New Castle county workhouse, Chief of Police Black and State Detective Theodore Francis testified they saw Cornell in the front ranks of the mob. In opposition to this members of the fraternal order of Eagles, of which Cornell is a member, testified that Cornell was at the carnival given by the Eagles and that he did not get back to Wilmington until after midnight.

William Cramer, the colored man who was shot last night, died to-day. Cramer was shot by William Simms, a man of his own color. Simms was held without bail to await the action of the coroner.

The courts acted promptly on several cases growing out of last night's disturbances and several of those under arrest were fined and imprisoned.

THE RUSSIAN GOVERNMENT

Learns With Profound Regret of the Intention of the Washington Authorities in Regard to the Jews.

By Telegraph to the Morning Star

WASHINGTON, June 26.—The Russian government has learned with profound regret of the intention of the Washington authorities to forward to St. Petersburg a petition from American Jews relative to Russia's treatment of her Jewish subjects. It is yet hoped that the United States will appreciate the Russian view of the case and will content itself with the kindly expressions of sympathy which it already has offered for the affair at Kishinev. The Associated Press already has stated the Russian position regarding what is considered outside interference in the internal affairs of Russia. That position is unchanged. The Associated Press is further permitted to say that Mr. Riddle, the American charge, when he presents the petition at the Russian foreign office, will be received with the same cordiality always accorded an American envoy. In returning the petition to Mr. Riddle the officials will assure him that Russia cherishes no ill will toward the United States and that the action it takes with respect to the petition is necessary in view of Russia's unalterable policy of refraining from interference in the internal affairs of other powers and insisting on similar treatment for itself. The Russian government hopes its firmness in the matter will not be misunderstood but in view of the announcement of its position weeks ago is surprised at the developments which will force a reiteration of its views.

BUILDING TRADES WAR.

Plasterers Throughout the Country May be Called Out.

By Telegraph to the Morning Star.

NEW YORK, June 26.—The building trades war was renewed to-day when a delegation from the Ornamental Plaster Workers' Union and forty representatives of the Board of United Building Trades marched through the upper west side calling out all plasterers who were overlooked yesterday.

Plasterers throughout the country who work for members of the New York Employers Association will be called out and delegate Sam Parks declared to-day if this did not prove effective the housesmiths and bridgemens unions will order a national strike and tie up every building operation in the country.

NEGROES LYNCHED IN BAKER CO., GA.

Three Men Charged With the Murder of a Prominent White Farmer.

FORCIBLY TAKEN FROM JAIL.

Strung Up by a Mob of Fifty Men and Their Bodies Riddled With Bullets. The Crime That Caused the Lynching—All Quiet.

By Telegraph to the Morning Star.

MACON, GA., June 26.—An Albany, Ga., dispatch to the *Telegraph* says:

Baker county was the scene of a triple lynching about two o'clock this morning, when a mob of fifty determined men entered the town of Newton and secured possession of Garfield McCoy, Wiley Anetie and George McKinney, Miller county negroes, who had been arrested and lodged in jail for the murder last Saturday night of F. S. Bullard, a prominent white farmer of the seventh district of Baker.

The manner in which the prisoners were obtained is unique and altogether without precedent. Jailor William Screws, who resides near the jail, was awakened about 12 o'clock by Bailiff R. Tucker, who stated that he had a prisoner to place in the lock-up. The jailor hastily donned his clothes and proceeded to the jail. As soon as he had unlocked the prison doors he was suddenly surrounded by a swarm of men with drawn revolvers who demanded that he unlock the cell in which the Miller county negroes were lodged. He did as commanded, under protest, and the three negroes were dragged from the jail, the prisoner in charge of Tucker imaking his escape during the excitement. Their appeals for mercy were lost on the mob, who began beating and slashing them with knives as soon as they had left the door of the jail.

The mob lost no time in leaving Newton with the negroes and when about a mile west of the town the three men were halted, nooses tied about their necks and amid the shouts of the men were strung up. The crowd fired several hundred shots into the swaying bodies, after which they quietly dispersed.

The crime for which the negroes were lynched occurred on the plantation of Bullard during the progress of a dance given by one of Bullard's tenants. Negroes from Early, Miller and Decatur counties were present and trouble was soon started by McKinney, Annette and McCoy putting out the lights. Just at this juncture Bullard appeared on the scene and commanded order. His interference was resented by the three negroes, who opened fire upon him with revolvers. Bullard fell mortally wounded and died Tuesday.

The negroes were arrested Monday and lodged in the jail at Newton. At their commitment trial it was proven that the shot that killed Bullard was fired by McKinney, and that Annette and McCoy also fired at him. The negroes were remanded to jail to await trial at the next session of Baker Superior Court, and absolutely no talk of lynching was indulged in by citizens. It is the concensus of opinion that the work of the mob was largely due to the fact that Bullard's family is left in a sad condition, his wife being a helpless invalid and several small children are dependent. The lynching was a great surprise to the people of the county, as it was generally believed that the law would be allowed to take its course in their cases. The lynching is generally deplored.

VANDERBILT ENTERPRISE.

Model Manufacturing City to be Built in Transylvania County, N. C.

By Telegraph to the Morning Star.

ASHEVILLE, N. C., June 26.—The *Citizen* says:

It is reported that George W. Vanderbilt has acquired a large tract of land between Hendersonville and Brevard, N. C., about thirty miles from Asheville, and will shortly commence the construction of a model manufacturing city, all of which will be completed and ready for occupancy before any one will be permitted to settle in the new city. A complete system of water works, electric lighting, heat and power will be installed. A perfect city, will, it is said, be created and given over to habitation.

JONES MURDER TRIAL.

The Case Will Probably Reach the Jury This Afternoon.

By Telegraph to the Morning Star.

WILSON, N. C., June 26.—To day has been consumed by argument in the Jones murder trial. Messrs. Uzzell, for the State, James H. Pou and John E. Woodard, for the defence, have consumed the day with the arguments. The end of the case is now in sight, there remaining only one speech, that of F. S. Spruill for the State, and Judge Shaw's charge. The case will reach the jury to-morrow afternoon and a verdict is predicted by night.

FOUR PERSONS SHOT.

Fatal Family Quarrel Among Negroes at Knoxville, Tenn.

By Telegraph to the Morning Star.

KNOXVILLE, TENN., June 26.—At the home of Alexander Beattie, a negro shoemaker, to-night, four members of his family were shot, three fatally. When Samuel and Warren, two sons, aged about 20 years, engaged in a quarrel, each pulled a pistol and fired at the other. Both were fatally wounded, each receiving a bullet in the abdomen. The mother of the boys ran into the house and was accidentally shot in the left side. She will die. A daughter hearing her mother's screams also ran in and was shot in the arm.

MARINE ENGINEERS.

A Possible Settlement of the Strike in Norfolk, Va.

By Telegraph to the Morning Star.

NORFOLK, VA., June 26.—The first real sign of a possible settlement of the marine engineers' strike in this city was evident to-night when the vessel owners and a committee from the Engineers Union met in the Monticello Hotel. The meeting began at 8 o'clock to-day. It was given out that it would possibly last the remainder of the night. Both sides are willing to grant some concessions, but it cannot be said how near they will come together at this time.

Gentlemen—Some six years ago I began to have sciatica, and also a chronic case of muscular rheumatism. At times I could not work at all (my business being baggage master on Southern R. R.). For days and weeks at a time I could not work. My suffering was intense. Physicians treated me, without permanent relief, however. Tried a number of advertised remedies without permanent benefit. Finally I tried "RHEUMACIDE." It did the work, and I have had excellent health for three years. I can cheerfully say that all rheumatics should use "RHEUMACIDE," for it is by far the best remedy.

THE MANCHURIAN QUESTION.

Public Impatience in Japan is Increasing Daily—A Council at the Palace.

By Cable to the Morning Star.

LONDON, June 26.—The Tokio correspondent of the *Times* says public impatience in Japan in regard to the Manchurian question is increasing daily. The most sober journals declare that the nation would support the government in taking measures. A council of all the leading statesmen was held at the palace to-day, and it is rumored that as a result thereof the government intends to address a protest direct to St. Petersburg. Other information, which may be considered as more reliable, says the Japanese government is awaiting the outcome of the negotiations at Pekin and if they prove injurious to the interests and rights of Japan the government will not shrink from the necessary measures. The gravity of the situation, concludes the *Times'* correspondent, is fully recognized in official circles.

INSANELY JEALOUS

Two Women Attacked by P. H Worden. One Killed and the Other Wounded.

By Telegraph to the Morning Star.

SHERMAN, CONN., June 26.—Angered over her refusal to marry him, P. H. Worden, of Carmel, N. Y., to-day killed Edith Roscoe, also of that town, by cutting her throat. He then attacked Mrs. Sherman Roscoe, sister-in-law of Miss Roscoe, with a hammer, crushing her skull and inflicting probably fatal injuries. Worden then attempted to kill himself by shooting. The tragedy occurred at the Roscoe home on a farm here, where Worden and Miss Roscoe were visitors.

The only cause assigned for Worden's acts is that he was insanely jealous of Miss Roscoe and killed her in a rage because she refused to marry him. His attack on Mrs. Roscoe is thought to have been due to Worden's belief that she had influenced her sister-in-law's action in refusing him.
